EBTRON
Precise Airflow Measurement

- Air handling unit airflow measurement
- Fan array and duct airflow measurement
- Small box applications (tracking pairs)
- Thermal image people counting for Demand Control Ventilation

Accurate, repeatable thermal dispersion airflow measurement.

ebtron.com

Badger Meter
Flow and Energy (BTU) Measurement

- Impeller, disc, electromagnetic, and ultrasonic flow meters
- Energy (BTU) meters and submeters
- Vortex liquid, gas, and steam meters
- Specialty flow meters

Reliable, accurate flow and energy measurements.

badgermeter.com

Sage Metering
Gas Flow Measurement

- Thermal mass gas flow meters
- Natural gas submeters
- Compressed air flow meters
- On-site calibration verification

State-of-the-art award-winning features and reliability.

sagemetering.com

TSI
Lab and Critical Room Controls

- Laboratory and fume hood controls
- Isolation room pressure monitoring and control
- Cleanroom monitoring systems
- Particle counters for compounding pharmacies and labs

Over 30 years in hospitals, labs, and clean rooms.

tsi.com

MSA
Fixed Gas Detection

- Chiller room refrigerant detection
- Vehicle garage CO and NO2 detection
- Explosive gases, % LEL, and battery rooms
- Laboratory gas detection

Accurate, reliable gas detection used throughout the world.

msasafety.com

Fresh-Aire UV
UVGI Disinfection (UV-C)

- HVAC Airborne Duct and Coil UV-C Disinfection
- UV-C for Fan Coils, PTACs, and Mini-Splits with Tight-Fit Kit
- Room and Surface Disinfection Systems / VOC and Odour Control
- UV-C + Titanium Dioxide Infused Activated Carbon Disinfection

Every building benefits from Ultraviolet Germicidal Irradiation (UVGI).
