EBTRON
Precise Airflow Measurement

Accurate, repeatable thermal dispersion airflow measurement.

Badger Meter
Flow and Energy (BTU) Measurement

Reliable, accurate liquid flow and energy measurement.

Sage Metering
Gas Flow Measurement

State-of-the-art, award-winning features and reliability.

air sniper  **Air Sniper**
UV-C Sanitization

Advanced supplemental air sanitization.

Antrum
Air Quality Monitoring

Continuous indoor air quality monitoring systems.

Macurco
Gas Detection

Rapidly deployable, connected, intelligent gas detection.

Fresh-Aire UV
UVGI Disinfection (UV-C)

Buildings benefit from Ultraviolet Germicidal Irradiation (UVGI).

Setra Systems
Room Pressurization

Room pressure monitors and controllers for safe spaces.

Ensuring quality in the products and services we provide is our number one goal.
