**EBTRON**  
*Precise Airflow Measurement*

Accurate, repeatable thermal dispersion airflow measurement.

**Badger Meter**  
*Flow and Energy (BTU) Measurement*

Reliable, accurate liquid flow and energy measurement.

**Sage Metering**  
*Gas Flow Measurement*

State-of-the-art, award-winning features and reliability.

**air sniper**  **Air Sniper**  
*UV-C Sanitization*

Advanced supplemental air sanitization.

**Antrum**  
*Air Quality Monitoring*

Continuous indoor air quality monitoring systems.

**MSA**  
*Fixed Gas Detection*

Accurate, reliable gas detection used throughout the world.

**Fresh-Aire UV**  
*UVGI Disinfection (UV-C)*

Buildings benefit from Ultraviolet Germicidal Irradiation (UVGI).

**Setra Systems**  
*Room Pressurization*

Room pressure monitors and controllers for safe spaces.

Ensuring quality in the products and services we provide is our number one goal.
