**EBTRON**

*Precise Airflow Measurement*

Accurate, repeatable thermal dispersion airflow measurement.

**Badger Meter**

*Flow and Energy (BTU) Measurement*

Reliable, accurate liquid flow and energy measurement.

**ATI**

*Water and Wastewater  
Quality Monitoring*

Analytical sensors & monitoring solutions for water & wastewater.

**s::can**

*Water and Wastewater  
Quality Monitoring*

Intelligent. Optical. Online.

**Sage Metering**

*Gas Flow Measurement*

State-of-the-art, award-winning features and reliability.

**Air Sniper**

*UV-C Sanitization*

Advanced supplemental air sanitization.

**LDI ROW**

*Non-Contact Oil Detection*

Real-time Detection System for Oil on Water.

**Fresh-Aire UV**

*UVGI Disinfection (UV-C)*

Buildings benefit from Ultraviolet Germicidal Irradiation (UVGI).

**Setra Systems**

*Room Pressurization*

Room pressure monitors and controllers for safe spaces.

Ensuring quality in the products and services we provide is our number one goal.
